Section III:

Committee Signatures

The committee names/signatures must match the Nomination of Master's Thesis Committee paperwork on file with OGE.

Committee signatures should only be obtained after the finalized version of the thesis has been approved by all committee members. In the event that there are necessary revisions to be made and any or all other committee members will not be available after the defense/presentation date to sign, they may sign at the defense and the chair may act as representative of those committee members with the final signature of approval after all revisions required by the committee have been satisfied.

NOTE: Signatures may be original, electronic or scanned.

Section IV: Completed by Chair and approved by OGE

The chair should not sign this form until all necessary revisions have been made and approved. In the event that the rest of the committee signatures were obtained at the defense/presentation (or any time prior to the date of final approval), the signature of the chair will be considered representative of the approval of all committee members.

PLEASE NOTE: If applicable, the student and chair should discuss any delay in the release of the thesis. OGE no longer handles thesis embargoes. The student must request the embargo through ProQuest at the time of submission.

This form should be submitted to OGE via **EMAIL**, along with the required survey, **WITHIN 1-2 BUSINESS DAYS** of the chair's approval. The thesis should then be uploaded to ProQuest ETD **WITHIN 24 HOURS** of the paperwork being submitted. Any delay in the submission of this form or the upload of the student's thesis to ProQuest ETD may result in the delay of the OGE review process.
